Sizing & Spacing

There are two versions of the LEGOLAND® Resort logo. Usage depends on the size of the LEGO® logo. Use the **primary version** whenever the LEGO logo is larger than 8mm. If the LEGO logo appears smaller than 8mm, use the **secondary version**.

The minimum border protection for each version of the LEGOLAND Resorts logo is half the size of the LEGO flag. This will ensure maximum legibility when placing the logo in situ.

The secondary logo can never go below the 8mm requirement. If space is limited, revert to the word mark, as a last resort.

The word mark minimum size is 6pt, with the minimum border protection being the X-height.
